The Metropolitan Toronto School Board

EXPLANATORY NOTES

REPORT ON ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY

As with any report involving as many individuals and as wide a range of school organization as this one, caution must be used in interpreting the data presented.

School Board staff are presently addressing the anomalies and relatively small number of extreme variations in class size data that have appeared in the Report on Elementary School Staff Utilization and Class Size Survey. Specifically, the School Profiles (Section I) and The Class Size (Section III) data are being reviewed. At this time, it would appear that any inconsistencies from what might normally be expected are attributable to either special class situations (i.e. Special Education) or if the Principal reported several classes or special assignment classes as single groups.

The School Board staff will continued to verify these anomalies in the Report and will contact Area Board staff and the computer personnel to resolve the problem. By working co-operatively, it is believed most irregularities can be both identified and resolved.

As indicated in the body of the Report, the Board staff is prepared to assist Area Board staff in any analysis or review they may wish to do.

Based on the fact that the tables within the report are a compilation of processed data, any group examing The Report should be cautioned that it is necessary to have a clear understanding of the process used to collect the data, and the table construction before arriving at any conclusions.

Respectfully submitted,

Monty P. Montgomery
Superintendent of Academic Studies

June 15, 1982

The Metropolitan Toronto School Board

June 4, 1982

To the Chairman and Members
of the Standing Committee:

Report on Elementary School Staff Utilization and Class Size Survey

On November 17, 1981, the School Board received the First Interim Report on Elementary Staff Assignment, Utilization and Class Size. The School Board requested a second interim report to include information on the "ASSIGNMENT" of teachers on a school-by-school, board-by-board basis. This information was received by the School Board at its meeting of December 4, 1981. The report presented was based on the numerical assignment of teachers and paraprofessionals to the schools within each of the Boards.

In January, 1982, a pilot project to collect data on teacher utilization was embarked upon with representative schools from each of the Boards. Principals and staffing superintendents from all jurisdictions and M.T.S.B. research staff collaborated to develop appropriate forms and terminology that would permit comparative data to be collected across Metropolitan Toronto. Subsequently, staff utilization and class size information was collected from sample schools.

Following the pilot project, a futher refinement of the data collection instrument was made and during the week of March 15 to 19, 1982, all principals in all elementary and junior high schools completed the Elementary School Staff Utilization and Class Size Survey. March 15, 1982, was designated as the 'freeze date' for reporting all data.

The information was then screened by the Area Boards' staff and the completed forms were forwarded to the M.T.S.B. on April 1, 1982. The detailed process of editing the information sheets, making corrections, key-punching, computer tabulation and developing reporting forms has been carried out since that time.

The actual survey had two sections: 1) an overall school form and 2) an individual teacher form. The key element was Total Instructional Time. The principal in each school reported Total Instructional Time in minutes per cycle within the regular school day in his/her school. The Total Instructional Time was entered on the school form as well as on each individual teacher form.

For the purpose of this survey, the concept of "Total Instructional Time" was developed to express teacher activity during the period of time approximately from 9:00 a.m. to 3:30 p.m. The component units of this time were:

i) Scheduled Assigned Preparation or Planning time;

ii) Scheduled Unassigned Time (excluding recess);

iii) Administration/Supervision Time; and

iv) Teaching Activity Time;

Principals reported the amount of time in minutes each teacher and principal working in the school spent on each of the above activities per cycle. Centrally-deployed teachers were accounted for through the appropriate supervisory officer. Total Instructional Time does not reflect or include the teacher/pupil activities that take place during recess, lunch period or time before or after school. During the pilot project phase, and based on comments received from principals, concern was expressed that activities such as school clubs, rehearsals, sports activities, etc. have not been reported in this survey. Section E of the School Cover Sheet, Assignment of Teaching Staff to Supervision Outside of Instructional Time, was an attempt to describe some of this data by school and not by teacher.

The individual Teacher and School Forms including Instructions are shown in Appendix A.

The information collected and processed has been divided into five major sections, each of which can be considered independent of one another. It should be noted that no attempt has been made at this time to analyze the data and to determine, for example, why certain schools or boards may show divergent figures or percentages in each of the areas reported.

SECTION I - SCHOOL PROFILES

The characteristics of each school within each jurisdiction indicating such things as: total teaching activity within the school as a percentage of the total instructional time, average total administration/supervision time as per student head count, average class size with comparative board and Metro average size based on specific grades and/or subjects are presented in this section. The individual "School Profile" data sheets are under edit and every effort will be made to have them for distribution at the Standing Committee meeting of June 8, 1982. A sample "School Profile" form is shown in Appendix B.

SECTION II - INSTRUCTIONAL TIME

PART A - TOTAL TEACHING ACTIVITY TIME AS A PERCENTAGE OF INSTRUCTIONAL TIME BY BOARD

This section contains a variety of tables on Teaching Activity Time as a percentage of the Total Instructional Time. Essentially, Teaching Activity Time was the actual time teachers are involved with students for: 1) regular grade or subject programmes, 2) withdrawal programmes, and 3) in the case of librarians and guidance counsellors, scheduled contact time outside of scheduled classes or programmes.

Again, for the purposes of this report, Total Instructional Time reflects the period from 9:00 a.m. to 3:30 p.m. and includes the four components: Scheduled Assigned Preparation or Planning Time of the Teacher, Scheduled Unassigned Time, Administrative and Supervision Time, and Teaching Activity Time.

PART B - NON-TEACHING ACTIVITY TIME AS A PERCENTAGE OF INSTRUCTIONAL TIME BY BOARD

This section provides tables on the activities that are not classified as "Teaching Activity Time." The three components involved are: Scheduled Assigned Preparation or Planning Time, Scheduled Unassigned Time and Administrative/Supervision Time--all expressed as a percentage of the Total Instructional Time available to teachers.

SECTION III - CLASS SIZE BY GRADE AND SUBJECT BY BOARD

This section of the report presents information related to class size according to grade and subject. The tables indicate the average class size plus the ranges from low to high. The data has been divided into Primary, Junior and Intermediate Divisions for grade purposes. In addition, Core Academic Subjects, Other Subjects and Special Assignment programmes have been illustrated.

SECTION IV - DISTRIBUTION OF SPECIAL ASSIGNMENT TEACHERS BY TYPE OF SCHOOL BY BOARD

The information reported in the tables in this section relates to the number of teachers in specific assignment areas such as: E.S.L., Immersion French, Special Education, etc.

SECTION V - TEACHER FEDERATION AFFILIATION, EXPERIENCE, QUALIFICATIONS AND DISTRIBUTION OF POSITIONS OF RESPONSIBILITY BY BOARD

This information is reported on a board-by-board breakdown for the various federation affiliations, experience and qualification levels of the teachers, positions of responsibility, principal, vice-principal and other such positions as designated by each board.

CONCLUSIONS

The above selection of information (Sections I through V) provides an indication of the complexity and amount of information available from the Elementary School Staff Utilization and Class Size Survey. The Boards of Education may derive considerable benefit from a careful examination and comparison of the information relating to individual boards.

One of the major benefits to the School Board has been the development of a survey instrument that, in the main, is able to collect common information from different school board organizations.

The Metropolitan Toronto School Board staff involved with the survey, therefore, believes that at this time it would be more appropriate to assist each area board in reviewing and examining the data than by embarking on a detailed and comparative analysis. Consequently, Mrs. Barbara Beardsley, Dr. Don Hambleton, and Mr. M. P. Montgomery of the staff of the School Board are prepared to assist area boards as requested.

RECOMMENDATION

IT IS RECOMMENDED:

a) That the Elementary School Staff Utilization and Class Size Survey be received by the Metropolitan Toronto School Board and forwarded to each of the Area Boards for review and analysis; and

b) That copies of the report be forwarded to all parties who have made representation to the School Board regarding this matter.

Respectfully submitted,

Monty P. Montgomery
Superintendent of Academic Studies

Charles G. Brown
Director and Secretary-Treasurer

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO
INSTRUCTIONS FOR SCHOOL COVER SHEET
(Blue Form)

Box in right hand corner

The "School #" is as it appears on label of envelope. This number is the same number used for all reporting to the School Board.

The "Teacher # s" will be assigned at the School Board by an automatic numbering machine.

A. IDENTIFICATION

Fill in 1, 2 and 3. Circle appropriate numbers in 4, 5 and 6.

Language of Instruction

If the basic language of instruction is English, circle 1), even though there may be one or more classes of oral French. Circle 2) only if major language of instruction is French. If there are immersion French classes in the school, circle 3).

B. STUDENT ENROLMENT

For head count enrolment, count each JK and SK student as "1". For FTE enrolment, count each JK and SK student as ".5".

C. TEACHING STAFF

For head count of teaching staff, count all teachers assigned to the school as "1". For FTE, count percentage of time in decimals, e.g. 1, .5, .33, etc. Include the principal in both counts.

D. SCHOOL WEEK

Circle all levels appropriate to your school. If a junior school, circle 1) and 2). If an intermediate school, circle 3). If a composite school, circle 1), 2) and 3).

In column 1, enter the length of each cycle in the school in days.

In column 2, enter the number of minutes for each cycle.

Instructional time is time in the regular school day. This time may vary from school to school. For the purpose of this survey instructional time (column 2) does not include recess (column 3), lunch period (column 4), or time before or after school (see section E). Some schools have a scheduled remedial time, e.g. from 3:30 - 4:00, to which teachers are assigned regularly. As this time does not apply to the majority of students, or the majority of teachers, it should not be included in the instructional time but it should be listed separately in section E. 1.

The number of minutes of instructional time is crucial. This is exactly the same number which for all full-time teachers will be entered on teacher forms in Section B.5 Time, "Total Instructional Time During One Cycle".

For part-time teachers, the time will be the exact number of minutes they work in the school during one of the regularly scheduled cycles.

Some schools may have two or more different sets of instructional minutes, or more than one cycle. Each scheduled cycle is to be entered. Please enter the JK/SK cycle whether it is different from, or identical to, the school cycle for the other grades. See example below.

D. SCHOOL WEEK (please circle)	(Col. 1) Length of Cycle (in days)	(Col. 2) Instructional Time Excluding Recess (in min.)	(Col. 3) Recess (in min.)	(Col. 4) Lunch (in min.)
(1) JK/SK	5	1500		450
(2) 1-5 or 1-6	5	1350	150	450
(3) 6-7-8, 7-8 or 7-8-9	6	1800		360
4) Other				
5)				

While it is acknowledged that the principals and vice-principals and many of the staff work longer than the scheduled cycle, for the purpose of this survey, choose the most appropriate cycle from the regularly scheduled cycles in reporting "Total Instructional Time" for each teacher on the teacher forms, (Section B.5).

E. ASSIGNMENT OF TEACHING STAFF TO SUPERVISION OUTSIDE OF INSTRUCTIONAL TIME

This assignment does not include time spent with school clubs, newspapers, athletics or other extracurricular activities.

For example, a school in which the following schedule applies:

1) Remedial	4	teachers from 3:30 - 4:00 (4 days a week)
	2	teachers from 8:30 - 9:00 (1 day a week)
2) Before school	4	teachers from 8:45 - 9:00 (every day)
3) A.M. recess	2	teachers from 10:30 - 10.45 (every day)
P.M. recess	2	teachers from 2:15 - 2:30 (every day)
4) Lunch	1	teacher from 12:00 - 12.30 (every day)
	1	teacher from 12:20 - 12:50 (every day)
	1	teacher from 12:40 - 1:10 (every day)
	1	teacher from 1:00 - 1:30 (every day)
	20	teachers from 1:20 - 1:30 (every day)
5) After school	5	teachers from 3:30 - 3:40 (every day)

The form would be filled out as in the sample below:

	# Staff		#Minutes Each Person Each Cycle		Total Minutes Per Cycle	
1) Scheduled Remedial Time Outside of Instructional Time	4	×	120	=	480	(4 teachers, 30 min. for 4 days, 120 min. each per cycle)
	2	×	30	=	60	(2 teachers, 30 min. for 1 day, 30 min. each per cycle)
2) Before School	4	×	75	=	300	(4 teachers, 15 min. for 5 days, 75 min. each per cycle)
3) Recess	4	×	75	=	300	(4 teachers, 15 min. for 5 days, 75 min. each per cycle)
4) Lunch	4	×	150	=	600	(4 teachers, 30 min. for 5 days, 150 min. each per cycle)
	20	×	50	=	1000	(20 teachers, 10 min. for 5 days, 50 min. each per cycle)
5) After School	5	×	50	=	250	(5 teachers, 10 min. per day, 50 min. each per cycle)

MINUTES GRAND TOTAL: 2990

Revised 82-03-08

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO
INSTRUCTIONS FOR TEACHER FORM

Use one teacher form **(white form)** for each member of staff. Fill in sections A, B, and C, FULLY. Convert all time to minutes per cycle.

Section A: TEACHER IDENTIFICATION

Enter school code as it appears on label on envelope and on school cover sheet. This is the same number used for all reporting to the School Board.

Fill in a name (or number) for each teacher. Teachers names will not be entered into the computer record. The School Board will use an automatic numbering machine to number the form and this is the number which will be entered.

Circle whether teacher is full-time or part-time in your school. If teacher is part-time, enter percentage of time spent in your school, e.g. 10, 33, 50, 75 etc.

Circle appropriate numbers for Board, Federation, Teaching Experience, Qualifications, and Title/Position of Responsibility.

Teaching Experience

Circle total number of years of teaching experience as calculated for salary purposes.

Title/Position of Responsibility

Basically, position of responsibility implies some scheduled time for non-teaching activities. Do not use title "Teacher" for full-time guidance counsellor, librarian or administrator. If part-time guidance counsellor (or librarian or administrator) and part-time classroom teacher circle both titles.

Section B: TIME

In this section all the various time components of the teacher's instructional cycle are entered. For the purpose of this survey, instructional time does not include scheduled remedial time before or after the regular school day, nor does it include recess, lunch or time spent on supervision before or after school.

1. Scheduled Assigned Preparation or Planning Time

Time specifically assigned to the individual teacher, by the principal, for the purpose of lesson and/or curriculum planning.

Exceptions: (a) For the guidance counsellor, include prep or planning time for guidance under "Guidance Administration". (See section 3(b) below).

(b) For the librarian include prep or planning time for library activities or programs under Academic (Subject, Depts., etc.) (See section 3(c) below).

2. Scheduled Unassigned Time (excluding recess)

For the purpose of this survey any 'free-time' provided to teachers during which they may do what they wish is to be considered "scheduled unassigned time".

Generally speaking scheduled unassigned time may be lost due to the absence of a staff member. Prep/Planning Time is generally not violated.

3. Administration/Supervision

(a) School Administration

This section is to be used for any staff member who is assigned to school-wide administration. While it is acknowledged that the principals and vice-principals work longer than any one of the scheduled cycles, for the purpose of this survey, school administration is not to be reported longer than one of the scheduled cycles listed on the school cover sheet, (section D, SCHOOL WEEK).

(b) Guidance Administration

Includes ordering of materials, liaison with parents and community, inservice training of teachers as well as lesson or curriculum planning. Does not include time scheduled for contact with students.

(c) Academic (Subject, Depts. etc.)

Record in this section scheduled time for overall subject or departmental planning, maintenance or inservice training. Excludes scheduled assigned prep or planning time or scheduled unassigned time, as well as time scheduled for contact with students.

The time a librarian spends cataloguing or ordering books, visiting publishers etc. is to be entered under Academic (Subject, Depts. etc.). In addition it may be difficult to distinguish among prep and planning time, inservice education, and library administration, therefore, for the purpose of this survey, for the librarian, these types of activities are all to be recorded under Academic (Subject, Depts. etc.)

For all staff members, all time specifically scheduled for contact with students is to be recorded in section C.2 under "Scheduled Classes or Withdrawal Programs." For librarians and guidance counsellors, both C.1 and C.2 may be used.

Section C: TEACHING ACTIVITIES

C.1 Scheduled Contact Time Outside of Scheduled Classes or Withdrawal Programs

THIS SECTION IS TO USED EXCLUSIVELY FOR LIBRARIANS AND GUIDANCE COUNSELLORS.

For the librarian, record the time which is specifically scheduled for individuals, groups, or classes to "drop in" to the library to do research, exchange books, plan a project etc. For the librarian it is a regular activity to be so available; for the individual, group, or class it is an irregular, unscheduled activity. (If the time is regularly scheduled for the individual group or class, the time should be entered in C.2 "Scheduled Classes or Withdrawal Programs".)

Similarly, for the guidance counsellor, record the time during which he/she is scheduled to be available for individual students or groups to drop-in. For the guidance counsellor it is a regular activity; for the students it is an irregular activity. (If the time is regularly scheduled for the individual group or class, the time should be entered in C.2 "Scheduled Classes or Withdrawal Programs".)

For "Total Teaching Activity Time" for librarians and guidance personnel, add the time entered here to total of column 3, section C.2, "Scheduled Classes or Withdrawal Programs".

C.2 Scheduled Classes or Withdrawal Programs

1. Use program/subject codes (Section D.1) and withdrawal codes (Section D.2) in column 1.

2. Use grade level codes (Section D.3) in column 2.

3. Enter minutes per cycle for each class or withdrawal program in column 3.

4. For self-contained classes use column 4 for number of students. For withdrawal programs do not use column 4. Put the total number of students withdrawn for a particular subject or program, in column 5.

5. As the primary concern is teacher utilization, teacher time must balance (e.g. 1500 minutes for full time, 750 minutes for half-time, depending upon individual school cycle).

6. There is no need to balance the number of students. For instance if students are withdrawn from a grade teacher's class, it does not matter that they are counted both in the grade teacher's number of contacts and the ESL teacher's number of contacts.

7. Teachers who see some students on an irregular basis (e.g. some ESL teachers, some special education teachers, some inner core program teachers, some remedial reading teachers, etc.) will have to average the number of students they see on a weekly basis. Code 99 may be used for an undefined level.

8. If the librarian sees every class in the school once a week or cycle, each class is to be entered separately.

9. For JK and SK teachers, enter morning classes and afternoon classes separately.

10. For French Immersion teachers it does not matter how much time the teacher spends teaching in English or teaching in French.

11. If half a split grade leaves the room to take a class separately from the other half, this should be so indicated.

    For example, a full-time teacher with a split grade 4/5 whose grade 5 students are withdrawn for 40 minutes French every morning and whose grade 4 students are withdrawn for 40 minutes every afternoon, actually has 30 students for 950 minutes (split grade), 15 students for 200 minutes in grade 5 and 15 students for 200 minutes in grade 4. The form would therefore be filled out as below.

	(Col.1) Program or Subject Code	(Col.2) Grade Level Code	(Col.3) Time in Minutes Per Cycle	(Col.4) Total No. of Students (self-cont.)	(Col.5) Total No. of Students Withdrawal Program

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO

PROBLEMS, CONCERNS AND SOME RESOLUTIONS

To eliminate ambiguity from an information-gathering device such as the Elementary School Staff Utilization and Class Size Survey is the ultimate goal. However, such perfection is rarely attained. There were a few areas in the present survey in which the principal was "allowed to interpret" how he/she was to respond. In those ambiguous areas, decisions had to be made regarding the "correct" interpretation so that the consistency would be achieved. The staff responsible for editing the forms, after contact with the principal, made those interpretations. Although both the school and individual teacher forms were developed with the assistance and co-operation of staffing superintendents and principals from representative schools, the forms could not accommodate all situations. It is particularly difficult to accommodate variable teaching situations with a pre-established form.

1. WITHDRAWAL PROGRAMS AND SELF-CONTAINED CLASSES

Question: If the same group of students is withdrawn regularly for the same proportion of time throughout the year, is this a self-contained class or is this a withdrawal program?

Decision: In most cases involving French, Music, Physical Education, Library, and Mathematics, the arbitrary ruling was that this was a self-contained class. There were no codes for withdrawal programs for these subject areas unless they could be categorized as "remedial." During the editing process, a new code for "guidance withdrawal" was instituted.

Question: Can it be assumed that all remedial programs were of a withdrawal nature; that is, individuals or small groups withdrawn from their regular programs? In some schools there were regular on-going remedial programs for the same group of students in self-contained classes. The students were not withdrawn from any other program.

Decision: No code was established for this situation as it was not a common occurrence.

2. SPECIAL ASSIGNMENT

Problem: The confusion between self-contained classrooms and withdrawal programs was identified as a major problem in reporting Special Education and English-as-a-Second-Language classes. Every attempt was made to determine which category was correct.

Decision: The following general rules applied:

a) the number of students withdrawn from a regular class for Special Education, ESL, Enrichment, Remedial Work or Guidance was not subtracted from the total number of students in that class, even if the withdrawal was on a regular basis;

b) the number of students integrated into a regular program was not indicated;

c) in many self-contained special education classrooms, there were additional students withdrawn for various portions of time from regular programs and superimposed on the number in the special education classroom. These students were counted as part of the special education class IF THE SITUATION WAS CLEAR.

Several special situations remained unresolved; for example,

> One resource S.L.D-P teacher withdraws children individually or in small groups for differing amounts of time and at different times daily. Therefore, it is impossible to account for her time in minutes per cycle. Overall, she spends 70% with special education needs, 10% diagnosing other children's needs educationally and 20% offering remedial speech help.

3. OTHER SPECIAL SITUATIONS

Problem: Although the form allowed principals to indicate subject and grade, it did not allow for type of student or a dual type of program; for example,

> a) a special treatment program in which centrally-assigned teachers do most of the teaching, but in which the students are also integrated into the Industrial Arts and Physical Education programs;
>
> b) a special program for the Gifted in which the codes only indicate the subject but not the fact that it is Art for the Gifted.

In addition, although the form could accommodate most scheduled timetables, it could not accommodate extremely flexible teaching situations; for example, principals who teach on an irregular basis, the flow in and out of classes, the flow in and out of the library, teachers assisting other teachers, or a team-teaching situation.

4. INSTRUCTIONAL TIME CYCLES EXPRESSED IN MINUTES

Principals and vice-principals in reporting their Total Instructional Time were permitted to use the school's longest Instructional cycle listed on the School Cover Sheet. They were not allowed a separate cycle from the other staff members.

Special Education instructional cycles were considered to be identical to the grade 1 - 6 instructional cycle, unless indicated otherwise. If the special education cycle was identical to the JK/SK cycle, it still needed to be entered separately.

Half-time or part-time teaching cycles were converted to full-time cycles; for example, if JK/SK cycle was entered as part-time, it was changed to be equivalent to a full-time cycle.

"Half-time" in the morning is different than "half-time" in the afternoon (frequently 3 hours a day or 900 minutes a week versus 2 hours a day or 600 minutes per week). For the purposes of this survey, teachers were counted as 0.5 in both situations.

5. PROBLEMS WITH CODES

Principal/Vice-Principal Salary Code

Many principals and vice-principals did not enter a salary code for themselves since there was no accommodation on the form for principals or vice-principals.

Family Grouping On the Survey Form

If the family grouping grade code was used, there was no way to distinguish whether the teaching activity was at the primary, junior or intermediate level.

Split Grade - SK/Grade 1

On the Teacher Survey Form no code was established for a senior kindergarten/Grade 1 class (split grade). During the editing, such a code was instituted.

Full-day Kindergarten

On the Teacher Survey Form, there was no special code for full-day kindergarten. The regular kindergarten code was used.

Other Subjects

Several subject areas had no code and were therefore entered under "Other." This is a general category for everything from computer science to academic upgrading.

A code for Outdoor Education/Environmental Education was added.

6. TEACHER TITLES

If a librarian or guidance teacher taught something in addition to library or guidance, the title, "teacher", was circled in addition to circling the titles, "librarian" or "guidance counsellor."

If a principal or vice-principal also taught classes, the title, "teacher" was circled in addition to "principal" or "vice-principal."

7. SUPERVISION

(a) Within Instructional Cycle

The time during which the regular classroom teachers accompanied their students to a scheduled library period with the librarian was entered under "supervision." No accommodation was made on the form for teachers who give up their scheduled preparation time voluntarily; for example, to do enrichment programs within the regular school instructional cycle.

If lunchroom supervision was assigned by the Principal to a teacher in lieu of a teaching period, the number of minutes per cycle was entered under "Other Administration/Supervision."

(b) Outside of Instructional Cycle

The school form has a separate section for "Assignment of Teaching Staff to Supervision Outside of Instructional Time." This includes Scheduled Remedial Time outside of Instructional Time, Before School, Recess, Lunch and After School. However, the form made no provision for time spent on mandatory staff meetings or parent-teacher conferences held outside this "normal" supervision time.

No provision was made on the school form to accommodate the special characteristics of some teachers' supervisory duties; for example, those of the librarian, physical education teacher, music teacher, etc. This supervision was reported by the principal in the general categories indicated above.

APPENDIX B

SCHOOL PROFILE FORM

NAME OF SCHOOL _____ BOARD _____
TYPE OF SCHOOL _____ STAFF HEAD COUNT _____
NUMBER OF STUDENTS _____ STAFF F.T.E. _____

1. TOTAL TEACHING ACTIVITY WITHIN SCHOOL AS A PERCENTAGE OF TOTAL INSTRUCTIONAL TIME FOR THE FOLLOWING PROGRAMS:

Program	Average
Art	
FSL	
FSL Extended	
French Immersion	
Guidance (incl. contact time outside of scheduled classes)	
Library (incl. contact time outside of scheduled classes)	
Music (vocal, instrumental or both)	
Physical Education	
English-as-a-Second-Language	
Special Education	
Remedial	
Enrichment	
Regular Grade	

2. AVERAGE TOTAL STAFF TEACHING ACTIVITY TIME AS A PERCENTAGE OF INSTRUCTIONAL TIME

School Average _____
Board Average _____
Metro Average _____

3. AVERAGE TOTAL ADMINISTRATION/SUPERVISION TIME AS A PERCENTAGE OF INSTRUCTIONAL TIME

School Average _____
Board Average _____
Metro Average _____

4. AVERAGE NUMBER OF MINUTES OF ADMINISTRATION/SUPERVISION TIME PER CYCLE

Per Student (head count) _____
Per Teacher (F.T.E.) _____

5. AVERAGE PERCENTAGE OF ASSIGNED PREPARATION OR PLANNING TIME

School Average _____
Board Average _____
Metro Average _____

6. AVERAGE PERCENTAGE OF SCHEDULED UNASSIGNED TIME

School Average _____
Board Average _____
Metro Average _____

7. AVERAGE CLASS SIZE

	School Average	Board Average	Metro Average
JK/SK			
Grades 1, 2, 3			
Grades 4, 5, 6			
Grades 7, 8, 9			
Art

ELEMENTARY SCHOOL STAFF UTILIZATION AND
CLASS SIZE SURVEY IN METROPOLITAN TORONTO

SECTION II

PART A

TEACHING ACTIVITY AS A PERCENTAGE OF INSTRUCTIONAL TIME

		Page
Table 1 -	Teaching Activity as a % of Instructional Time by Type of Assignment (Survey Type) and by Board	301
	- Teaching Activity as a % of Instructional Time by Type of Assignment (Survey Type) and by Positions of Responsibility	301
	- Teaching Activity as a % of Instructional Time by Type of Assignment (Survey Type) and by Type of School - for Individual Boards	302-303
Table 2 -	Teaching Activity as a % of Instructional Time By Single Grade Assignment and By Type of School	304-306
Table 3 -	Teaching Activity as a % of Instructional Time By Split Grade Assignment and By Type of School	307-310
Table 4 -	Teaching Activity as a % of Instructional Time By Type of Special Assignment and By Type of School	311-313
Table 5 -	Teaching Activity as a % of Instructional Time By Subject and By Type of School	314-319

NOTES - For total teaching activity time in individual schools as a percentage of instructional time, see Section I, School Profiles.

- Tables for individual boards are available but are not included in the body of the report.

The Metropolitan Toronto School Board

August 18, 1982

To the Chairman and Members
of the School Board:

PART I

Supplement I: Elementary School Staff Utilization and Class Size Survey in Metropolitan Toronto

At its meeting of June 15, 1982, the School Board received the Elementary School Staff Utilization and Class Size Survey and approved of the recommendation within the report. Since that date, staff have had the opportunity to examine the computer output in more detail.

The School Board staff addressed the anomalies and relatively small number of extreme variations in the class size data (Section I and III of the original final report). Exhibit I (pp. 4 - 28) explains in considerable detail the reasons for the anomalies and extreme variations, and offers on a Metro-wide basis an analysis of the class size tables presented in the original report.

Exhibit II (pp. 29-44) contains observations and generalizations made on a Metropolitan Toronto base. Tables in Exhibit II to this supplementary report (pp.37 - 44) are summaries of several tables found in the original report. References are made to either tables and page numbers in the original report or to the new summary tables.

Analysis of the statistical tables within the report has been done on a broad basis. The tables contain a wealth of information that should be examined carefully in more detail.

Several appendices are available to assist in the understanding of the original report:

Appendix I (page 45)	Explanation of a School Profile; an Interpretative Visual Guide
Appendix II (page 46)	Clarification of Tables in Final Report

Appendix III (page 47)	Errata in Final Report
Appendix IV (pp. 48-50)	Tables not used in the Original Report (Available on Request)
Appendix V (pp. 51-56)	Index to tables; an alphabetical index to the tables in the original report and to the tables available on request

As indicated in the conclusions of the report, it is believed that one of the major benefits to the School Board has been the development of a survey instrument that, in the main, is able to collect information from different School Board organizations.

The School Board in its initial approval of the Elementary School Staff Utilization and Class Size Survey on November 17, 1981, also approved a sum of $15,000 to be included in the School Board's 1982 Composite Current Budget to retain the necessary personnel to develop, edit and tabulate the survey data.

The major costs were for the computer work and keypunching done through OISE. The minor costs were for editors and telephone follow-up people to assist the Metro staff.

The breakdown is as follows:

Programming/computing	$11,000.00
Data entry (keypunching)	9,244.60
Editors/telephone follow-up	2,091.00
Total cost of survey	$22,335.60

Although the project was closely monitored, the cost of keypunching was underestimated by all involved. As well, the required editing and programming on this original report project developed into a greater expense than anticipated.

School Board staff will continue to examine the tables of the report in greater detail and will pass on their relevant findings to the Area Boards through the appropriate Staffing Superintendents.

As indicated previously in the explanatory note and in the body of the original report, the School Board staff is prepared to assist Area Board staff in any analysis they may wish to do.

RECOMMENDATIONS

IT IS RECOMMENDED that Supplement I to the Elementary Staff Utilization and Class Size Survey report be received and forwarded to the Area Boards.

Respectfully submitted,

M.P. Montgomery
Superintendent of Academic Studies

C.G. Brown
Director and Secretary-Treasurer

ELEMENTARY SCHOOL STAFF UTILIZATION AND
CLASS SIZE SURVEY IN METROPOLITAN TORONTO

EXTREME VARIATIONS IN CLASS SIZE

For the survey, principals reported class sizes for over 36,000 classrooms. In this total picture of classrooms in Metropolitan Toronto, 589 cases (or 1.6%) were reported with class size of more than 40 students; and, excluding special education and ESL, 849 (or 2.3%) were reported with class size of fewer than 10 students. For some subjects, ranges seemed extreme.[1]

A careful examination of all extreme variations, both large and small, has been done. Overall class size averages for boards, individual subjects and grade levels may be quoted with a fair amount of confidence. Lower ranges are more than 99% accurate; upper ranges more than 98% accurate. There is, however, a problem with some subjects and grade levels in individual schools because of aggregations.

Principals were asked to report class sizes for each teacher, for each class, even for small periods of time.

For instance, consider a split grade 3/4 class, with 9 students in grade 3 and 15 students in grade 4. For most of the cycle, the teacher has a class size of 24, but for 30 minutes a day or 150 minutes a cycle, the teacher has a class size of 9. In reporting ranges, the lower number 9 is used. For the averages, the 150 minutes with 9 students is weighted against the 1,200 minutes with 24 students.

---

1. When only the middle two-thirds of all classes are considered, the ranges are quite different. (See Class Size Section, Exhibit II, pp. 33, 41-42 of this Supplement I Report.)

Or take a music teacher who for most of the cycle has regular classes of 30 minutes duration with approximately 25 students; for two periods of 15 minutes, she has a choir with over 90 students. The upper range class size is reported as 90, but when 30 minutes with 90 students is weighted against 1,320 minutes with 25 students, the overall class size average is not affected greatly.

Several different calculations of class size were done:

1. The individual School Profiles in the final report, and the class size section in the report to the staffing superintendents on June 3, 1982, showed class size for all 36,000 classes, including those under 10 and those over 40.

2. Section III of the final report, pages 333-337, suppressed classes over 99 on the assumption that legitimate class sizes over 99 would be rare.

   In fact, there were 108 such cases of classes over 99 reported in 36 different schools. Of these, nine were music classes (in six schools) and, in all likelihood, are reported correctly. The remaining 99 cases of classes over 99 students were aggregations; that is, several classes for an individual teacher were reported as a single group.

3. A third calculation was done suppressing all classes less than 10 and more than 40. This calculation was never used publicly but is available at the School Board office. In most cases, the actual class size did not change, either up or down, by more than one.

Since the June Board meeting, a detailed board-by-board and school-by-school examination of all classes over 40 and under 10 has been done. In particular, the number of minutes when the class size was small or large has been examined carefully. The following statements are based on this analysis. The full documentation is available in the School Board office. Summaries are included in this report.

Large Classes

Of the 589 cases of classes over 40, 188 appear to be legitimately large classes. These are accounted for by the nature of the subject (e.g. music), the nature of the school (e.g. an alternative school) and/or by the fact that

the large class is only a large class for a short amount of time--anywhere from 15 minutes per cycle to 40 minutes per day.

Of the classes reported to have over 40 students, more than half (324/589) were incorrectly reported as aggregations, and, unfortunately, were not caught by the manual editing and were not flagged in the computer soon enough for reporting. Nearly a third of these aggregations were reported for library classes, and a sixth for French as a second language.

A large proportion of the homeroom aggregations were for JK or SK. Because it was a common error to aggregate kindergarten classes, all JK, SK and JK/SK classes with more than 1,200 minutes were examined. Another 41 instances of aggregations with class sizes from 17 - 40 were counted. Some of these are all-day kindergartens, however.

Out of the 589 cases of classes reported over 40, 79 cases (or 0.2% of the 36,000+ classes) were categorized as "questionable"; that is, they are classes which may or may not have been reported correctly. Nearly half of these 79 questionable cases were in physical education. Only be telephoning the schools would a more careful categorization be possible.

It is worth noting on the summary tables[1] that a small proportion of schools account for a large proportion of the large class sizes. The large porportion of School Profiles are therefore accurate.

Together, aggregations and questionable cases account for only 1.2% of the total number (36,000+) of classroom situations. Thus, upper ranges of class sizes, as reported in Section III (pp. 333-337) of the original report, are more than 98% accurate.

---

1. Pages 9-28.

Small Classes

There were 849 cases of classrooms with a class size reported to be under 10. 827/849 of these have been categorized as legitimately small. A large proportion of the legitimately small classes are subject classes for special education students; this is true, particularly, for the 268 small library classes, the 70 family studies and the 40 industrial arts classes reported to have enrolments under 10 students. Most of the remaining are legitimately small because of the small amount of time (e.g. half a split grade homeroom class while the other half takes French for 20-40 minutes per day; a special 30-minute class once a cycle; small music classes, etc.). The 258 small homeroom classes are frequently small for only 15-45 minutes out of the whole weekly cycle. In addition, a small proportion are small because of the small enrolment of the school.

Of the regular subject and homeroom classroom situations which principals reported to have class sizes of less than 10 students, only 22 (or 0.06% of total classrooms) have been categorized as "questionable". Thus, lower ranges as reported in Section III (pp. 333-337) of the original report are more than 99% accurate.

EXHIBIT II

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO

GENERALIZATIONS AND OBSERVATIONS

Introduction

The Elementary School Staff Utilization and Class Size Survey includes all teaching personnel in all junior, K-8, and intermediate schools in Metropolitan Toronto. Apart from any errors in the data collection process, the tables represent a total picture as opposed to sample information. The information does not allow generalizations to be made on staff utilization in previous or future years, only on staff utilization in the school year 1981-82. However, the survey provides a wealth of information on the utilization of the teaching and administrative staff.

The following generalizations and observations were judged to be of greatest interest. (Reference will be made to Tables and pages in the original report, or to Summary Tables and pages in this Supplement I Report.)

TEACHING ACTIVITY AS A PERCENTAGE OF INSTRUCTIONAL TIME (Section II - Part A, pp. 300-320 in the Original Report)

Less than 8% of the teaching force (including principals and vice-principals) in any board does either no teaching or teaches less than 10% of the instructional cycle.

(See Table 3, top of page 301.)

. . .

91.8% of principals do no teaching or teach less than 10% of the instructional cycle; vice-principals are somewhat different in that 58.8% do no teaching or teach less than 10%, 16.3% have homeroom responsibilities, and 10.6% teach a single subject.

Most chairmen teach either homeroom, homeroom plus one subject, or one, two or three subjects; less than 5% do no teaching.

33% of guidance teachers do no teaching or teach less than 10% of the instructional time.

5.8% of librarians do no teaching or teach less than 10%.

(See Table 1, bottom of page 301.)

. . .

Teachers who teach homeroom, or homeroom plus one subject, in junior schools, in all boroughs, teach more of the instructional time than any other group of teachers.

Teachers in K-8 schools, regardless of assignment, and regardless of borough, teach less of the instructional cycle than their counterparts in junior schools.

Teachers in intermediate schools, regardless of assignment, and regardless of borough, teach less of the instructional cycle than their counterparts in either junior or K-8 schools.

(See Table 1, pp. 302-303.)

. . .

Teachers in K-8 schools who teach any single grade, any split grade, or any special assignment, on the average, teach less of the instructional cycle than those teachers in a junior school.

(See Summary Tables 1, 2 and 3, pp. 37-38 Supplement I.)

. . .

Teachers in K-8 schools who teach any subject (apart from French extension programs) spend less time teaching that subject than similar subject teachers in a junior school.

Teachers in intermediate schools who teach any subject (apart from French extension programs) spend less time teaching that subject than similar subject teachers in K-8 schools.

Teachers in the French extension programs teach less of the instructional cycle if they are in junior schools compared to those in both K-8, or intermediate schools. This represents a reverse of the pattern identified in the two previous statements.

(See Summary Table 4, page 39 Supplement I.)

. . .

NON-TEACHING TIME AS A PERCENTAGE OF INSTRUCTIONAL TIME
(Section II - Part B, pp. 321-331 in the Original Report)

Teachers who teach two or three subjects tend, on the average, to have a greater percentage of the instructional cycle given for assigned preparation than do teachers who teach one subject.

For chairmen, there is a reverse pattern; chairmen who teach one subject tend to have more assigned preparation time than those who teach two or more subjects.

(See Summary Table 5, page 40 Supplement I.)

. . .

Chairmen who teach one, two or three subjects have a range of scheduled unassigned time from 6.1% to 7.5% whereas teachers have a range of 3.61% to 4.46%.

(See Summary Table 6, page 40 Supplement I.)

. . .

At least 96% of principals in junior, K-8 and intermediate schools spend in excess of 80% of the instructional cycle in administration/supervision assignments.

Less than 3% of principals in either junior, K-8 or intermediate schools spend less than 60% of the instructional cycle in administration/supervision.

More junior school principals spend 100% of the instructional cycle in administration/supervision than their counterparts in either K-8 or intermediate schools.

(See Table 3, top of page 326.)

. . .

The Metropolitan Toronto average of principals who spend 100% of the instructional cycle in administration/supervision is 76%. The range across the boroughs is from a high of 94.4% to a low of 57.1%.

(See Table 3, bottom of page 326.)

. . .

81% of the vice-principals in K-8 schools spend in excess of 80% of the instructional cycle in administration/supervision, compared to 59% for vice-principals in junior schools and 64% of vice-principals in intermediate schools.

65% of the vice-principals in Metropolitan Toronto spend in excess of 80% of the instructional time in administration/supervision duties.

(See Table 3, top of page 327.)

. . .

The Metropolitan Toronto average of vice-principals who spend 100% of the instructional cycle in administration/supervision is 39.05%. The percentages across the boroughs range from a high of 83.6% to a low of 14.6%.

(See Table 3, bottom of page 327.)

. . .

Teachers, on the average, spend less than 3% of their time in administration/supervision regardless of whether they are in a junior, K-8, or intermediate school, or whether they are in a small, medium or large school.

(See Table 4, top and bottom of page 328.)

. . .

Librarians in intermediate schools spend a smaller proportion of their time in administration/supervision (4.77%) compared to their counterparts in both K-8 school (8.01%) and junior schools (9.59%).

(See Table 4, top of page 329.)

. . .

For librarians, on the average, the larger the school, the less time is spent in administration/supervision; the range is 6.34% (schools over 500 enrolment) to 11.2% (schools under 200 enrolment).

(See Table 4, bottom of page 329.)

. . .

Guidance counsellors spend a maximum of 11% of their time in administration/supervision in junior schools and approximately 7% in K-8 and intermediate schools.

(See Table 4, page 330.)

. . .

Chairmen spend nearly twice as much time in administration/supervision (10%) in small schools (under 200 enrolment) than other sizes of schools.

(See Table 4, page 331.)

. . .

CLASS SIZE: MIDDLE 66 2/3%
(Section III - pp. 332-337 in the Original Report)

Junior kindergarten class size (the middle 66 2/3%) is from 15 - 25.8 as opposed to grade eight which is from 22.9 - 36.5.

The class size (middle 66 2/3%) of split classes tends to be larger than single grade classes.

(See Summary Tables 7 and 8, page 41 Supplement I.)

. . .

Apart from special assignment classes, the subjects with the lowest class size (middle 66 2/3%) are Family Studies, French as a Second Language, Art, Guidance, Industrial Arts, Library, Instrumental Music and Outdoor Education.

(See Summary Table 9, page 42 Supplement I.)

. . .

EXHIBIT II

DISTRIBUTION OF TEACHERS
(Section IV, pp. 338-341 of the Original Report)

60% of the teaching force (n = 9,891) is accounted for when homeroom, homeroom plus one subject, and single subject teachers are considered as one group.

Approximately 60% of teachers in junior schools are assigned to homeroom situations; in K-8 schools, homeroom assignments account for only 40% of the teaching group; in intermediate schools, the number drops to 6%.

14.5% (n = 1,438) of the total teaching staff do only special assignments (ESL, special education, enrichment or remedial programs); an additional 3.3% (n = 329) do some special assignment.

(See Table 4, top of page 341.)

. . .

Nearly two-thirds of all special education services are accounted for by teachers in local programs.

16% of the special assignments are in English as a Second Language.

The next largest service is remedial programs at 12.6%.

(See Table 1, top of page 339.)

. . .

TEACHER FEDERATION AFFILIATION, YEARS OF TEACHING EXPERIENCE, QUALIFICATIONS ACCORDING TO CATEGORY, AND POSITIONS OF RESPONSIBILITY BY FEDERATION AFFILIATION
(Section V, pp. 342-344 of the Original Report)

Within FWTAO and OPSMTF teacher groups, 2 out of 3 teachers belong to FWTAO; 5% of all teachers in the survey belong to OSSTF.

(See Table 1, page 343 of the Original Report.)

. . .

50% of the teachers in Metropolitan Toronto have taught fewer than 12½ years; 5% of the teachers have taught 30 years or longer.

(See Table 2, page 343 of the Original Report.)

. . .

50% of the FWTAO members have under 12 years' experience.

50% of the OPSMTF members have under 17 years' experience.

50% of the OSSTF members have under 14 years' experience.

(See Table 4, page 344 of the Original Report.)

. . .

46% of the teachers surveyed are in the top two salary categories.

(See Table 3, page 343 of the Original Report.)

. . .

61.2% of the FWTAO, 37.00% of OPSMTF and 47.2% of OSSTF members are in salary Category Five or less.

(See Table 5, page 344 of the Original Report.)

. . .

4.8% of the FWTAO hold a position of responsibility, or 1 out of 20; 30.3% of OPSMTF hold similar positions (1 out of 3) and 43.9% of OSSTF members (1 out of 2.5) are in a position of responsibility.

Less than 1% of FWTAO members are principals whereas 13% of OPSMTF members are principals.

(See Table 6, page 344 of the Original Report.)

. . .

DISTIBUTION OF PROGRAMS
(Section VI - Not in the Original Report)

Two-thirds of Art courses are offered in the intermediate schools.

The largest concentration of French as a Second Language, French Immersion and Library programs are in the junior schools. French as a Second Language (Extended) is found primarily in K-8 and intermediate schools.

Music and Physical Education programs occur almost equally in all three school types; the lowest incidence is in K-8 schools.

(See Table 10, page 43 Supplement I.)

. . .

Fewest cases of Art, French as a Second Language, French as a Second Language (Extended), French Immersion, Library, Music and Physical Education are to be found in schools under 200. The largest incidence of such subject areas is to be found in schools larger than 200 students and smaller than 500. In the case of French Immersion, the largest concentration occurs in schools larger than 350 students.

Across Metropolitan Toronto, out of 458 schools, 12 schools have French-as-a-Second-Language (Extended) programs, 33 have French Immersion programs, and 397 have French-as-a-Second-Language programs.

Across Metropolitan Toronto, out of 458 schools, 124 schools have Art programs, 190 have Physical Education programs, 207 have Music programs and 367 have scheduled Library classes.

(See Table 11, page 44 Supplement I.)

1. Based on Table 5, pp. 314-320 of the original report.

EXHIBIT II

SUMMARY TABLE 5[1]

PERCENTAGE OF INSTRUCTIONAL CYCLE PROVIDED AS ASSIGNED PREPARATION TIME FOR STAFF TEACHING ONE, TWO OR THREE SUBJECTS

Number of Subjects Taught	Teacher	Chairman
One	9.79	13.09
Two	10.57	11.10
Three	11.69	11.04

SUMMARY TABLE 6[2]

PERCENTAGE OF INSTRUCTIONAL CYCLE PROVIDED AS SCHEDULED UNASSIGNED TIME FOR STAFF TEACHING ONE, TWO OR THREE SUBJECTS

Number of Subjects Taught	Teacher	Chairman
One	3.78	6.23
Two	4.46	7.50
Three	3.61	6.10

1. Based on Table 1, top of page 322, and bottom of page 323, of the Original Report.

2. Based on Table 2, top of page 324, and bottom of page 325, of the Original Report.

EXHIBIT II

SUMMARY TABLE 7[1]

THE SIZE OF THE MIDDLE 66 2/3% oF CLASSES

JK	15.0 - 25.8
SK	16.1 - 27.5
Grade 1	19.7 - 27.5
Grade 2	20.2 - 28.6
Grade 3	20.3 - 30.1
Grade 4	20.9 - 31.7
Grade 5	21.2 - 33.0
Grade 6	23.1 - 33.3
Grade 7	23.5 - 34.9
Grade 8	22.9 - 36.5

SUMMARY TABLE 8[1]

THE SIZE OF THE MIDDLE 66 2/3% OF THE SPLIT CLASSES

JK/SK	15.5 - 32.1
SK/Grade 1	21.00
Grade 1/2	20.6 - 28.6
Grade 2/3	22.3 - 29.3
Grade 3/4	23.4 - 30.8
Grade 4/5	25.1 - 32.3
Grade 5/6	24.4 - 33.4
Grade 6/7	21.7 - 29.3
Grade 7/8	14.5 - 51.5
3 or more	12.9 - 30.7
Family Grouping	18.9 - 30.3

1. See Table 1-A, Page 333 for class size summary in which the average and standard deviation is shown for each grade. Plus and minus one standard deviation from the average defines the middle 66 2/3% of the class sizes. For example, in Junior Kindergarten, the average is 20.4 and the SD is 5.4; plus or minus 5.4 from the average gives a class size range of 15 - 25.8.

EXHIBIT II

SUMMARY TABLE 9[1]

SIZE OF MIDDLE 66 2/3% OF PROGRAM/SUBJECTS CLASSES

Special Assignment Classes	
English-as-a-Second-Language	11.2 - 25.8
Special Education Local (Excluding Gifted)	6.7 - 13.1
Special Education Metro	3.8 - 9.8
Special Education Ministry Funded	4.6 - 9.8
Special Education - Gifted	12.6 - 23.8
Enrichment Program	8.5 - 30.9
Subject Classes	
Art	19.4 - 34.4
Business Education/Consumer Education/Typing	21.4 - 41.0
English	22.8 - 35.0
Family Studies	10.8 - 24.4
French-as-a-Second-Language	16.9 - 37.3
French-as-a-Second-Language (Extended)	21.4 - 33.9
French Immersion	18.6 - 30.4
Geography/History/Social Sciences/Social Studies	23.8 - 36.8
Guidance	17.3 - 35.1
Industrial Arts	9.1 - 28.7
Library/Library Resources	14.3 - 37.7
Math	22.7 - 36.3
Music (Instrumental)	18.8 - 39.8
Music (Vocal)	21.0 - 40.0
Music (Both or Unspecified)	21.6 - 35.8
Physical Education/Health/Swimming	20.7 - 38.7
Science	23.4 - 38.2
Outdoor Education	7.7 - 34.7
Other	9.7 - 32.5

1. See Summary Tables 7 and 8 for an explanation of average class size plus or minus one standard deviation.

APPENDIX II

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO

Pages in Final Report	CLARIFICATION OF TABLES IN THE FINAL REPORT
P. 302 - 303	Excludes all teachers who do no teaching or less than 10% teaching.
P. 304 - 310; 314 - 320	Excludes centrally-assigned staff, principals, vice-principals, guidance counsellors and teachers who have a special assignment (e.g. ESL, remedial, special education) for more than 25% of their instructional time.
P. 322 - 325	Excludes principals and vice-principals.
P. 332 - 337	Class size as reported here excludes all classes larger than 99.
P. 284 - 299	Class size as reported in school profiles is for all classes including those less than 10, and more than 40.

APPENDIX III

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO

ERRATA IN THE FINAL REPORT

I. Two sets of identical tables in two separate sections (IIA and IV) of report with different table titles:

(1.a) Teaching Activity as a Percentage of Instructional Time by Type of Assignment (Survey Type) and by Board (p.301)

(1.b) Distribution of Teacher Assignment by Survey Type and by Board (p. 340)

(2.a) Teaching Activity as a Percentage of Instructional Time by Type of Assignment (Survey Type) and by Positions of Responsibility (p. 301)

(2.b) Distribution of Teacher Assignment by Survey Type and by Positions of Responsibility (p. 341)

II. Omission of JK and K tables in a series of tables on "Teaching Activity as a Percentage of Instructional Time by Single Grade Assignment and by Type of School" (p. 304-306). (Available on request.)

APPENDIX IV

ELEMENTARY SCHOOL STAFF UTILIZATION AND CLASS SIZE SURVEY IN METROPOLITAN TORONTO

TABLES NOT USED IN REPORT
(Available on Request)

SECTION I
School Profiles

1. Ratio of Scheduled Remedial Time Per Student (Head Count)

2. Ratio of Total Supervision Time Outside of Instructional Cycle Per Student (Head Count)

3. Frequency for Ratio of Scheduled Remedial Time Per Student (Head Count)

4. Frequency for Ratio of Total Supervision Time Outside of Instructional Cycle Per Student (Head Count)

SECTION II B
Non-Teaching Time

5. Total Administration/Supervision Time as a Percentage of Total Instructional Time By Board and

   (a) By Affiliation
   (b) By Years of Experience
   (c) By Salary Category Qualifications

6. Total Administration/Supervision Time as a Percentage of Total Instructional Time By Type of School and for Individual Boards

   (a) By Principals
   (b) By Vice-Principals

7. (a) Preparation Time as a Percentage of Instructional Time By Type of Assignment (Survey Type) and By Type of School

      (a) For Chairman, etc. (Other POR)
      (b) For Teachers
      (c) For Guidance Counsellors
      (d) For Librarians

   (b) Preparation Time as a Percentage of Instructional Time By Type of Assignment (Survey Type) and By Board Controlling for (1) Chairman, etc. (2) Teachers (3) Guidance Counsellors (4) Librarians in

      (i) Junior Schools
      (ii) K-8 Schools
      (iii) Intermediate Schools

8. (a) Unassigned Time as a Percentage of Instructional Time By Type of Assignment (Survey Type) and By Type of School

   (a) For Chairman, etc. (Other POR)
   (b) For Teachers
   (c) For Guidance Counsellors
   (d) For Librarians

   (b) Unassigned Time as a Percentage of Instructional Time By Type of Assignment (Survey Type) and By Board Controlling for (1) Chairman, etc. (Other POR) (2) Teachers (3) Guidance Counsellors (4) Librarians in

   (i) Junior Schools
   (ii) K-8 Schools
   (iii) Intermediate Schools

SECTION III
Class Size

9. Average Proportion Per School of Students Enrolled in French By

   (a) Type of School
   (b) Size of School

10. Average Proportion Per School of Students Enrolled in ESL By

   (a) Type of School
   (b) Size of School

11. Average Proportion Per School of Students Enrolled in Special Education By

   (a) Type of School
   (b) Size of School

12. Average Proportion Per School of Students Enrolled in Remedial Programs By

   (a) Type of School
   (b) Size of School

SECTION IV
Distribution of Teachers

13. Distribution of Special Assignment Teachers By Type of School for Individual Boards

14. Distribution of Teachers By Type of Assignment (Survey Type) for Individual Boards

   (a) By Type of School
   (b) By Position of Responsibility

15. Range and Average Number of Part-time Teachers Per School

SECTION V
Teacher Data

16. Crosstabs for Individual Boards By Federation Affiliation By

    (a) Years of Experience
    (b) Salary Category Qualifications
    (c) Position of Responsibility

SECTION VI
School Programs
(No Section VI in Report)

17. Percentage of Schools with Specific Programs (Art, FSL, French Immersion, Library, Music and Physical Education) for Individual Boards

    (a) By Size of School
    (b) By Type of School

18. Percentage of Teachers who Perform Library and/or Guidance Functions By Title or Position of Responsibility for Individual Boards
